## PROFILE

Aspiring Full-Stack Web Developer with hands-on experience building scalable, responsive applications using JavaScript, React, and Node.js. Passionate about crafting seamless user experiences through thoughtful design and functionality. Continuously learning modern technologies to master every layer of development and contribute to impactful projects.

## PROJECT

**Electricity Bill Management System**

Sep 2023 - Nov 2023

- Developed a web-based Electricity Bill Management System as part of a college project
- Used HTML, CSS, and JavaScript to build a responsive and interactive frontend interface.
- Utilized MySQL for backend database design and data storage.
- Implemented features for bill calculation, user management, and record storage.

### ARK – Emergency Healthcare Platform

- Built a web and Android app using React.js, Java, and Firebase to connect rural patients with volunteer doctors.
- Implemented role-based login, real-time alerts, and image-based help requests using Firebase Auth, Realtime Database, and Cloud Storage.
- Focused on accessibility and emergency responsiveness to provide free medical support in underserved areas.

## SKILLS

- Languages & Framework:** Java, C, HTML5, CSS3, JavaScript
- Databases:** MySQL
- Tools:** Git, GitHub, Visual Studio Code, Figma, Canva
